

Product Description

TD-806 LED Solar Lantern

TD-806 LED Solar Lantern is a dual purpose solar light and mobile charger. Its bright white light illuminates a room as much as a 3-5 Watt CFL lamp, and is up to five times more energy efficient. It provides up to 10 times more light than a kerosene lantern.

It also charges the most popular mobile phones on the market. It keeps personal mobile phones fully charged even when AC power is unavailable or inconvenient.

It features four different brightness settings, providing up to 40 hours of bright light, 20 hours of brighter light, 12 hours of brightest light, and 500 hours of bed light.

It can be recharged by Solar Panel or AC charger.

Specification:

Solar Panel: 1.7W Poly-crystalline Solar Panel

Battery: Built in 6V/3200mAH SLA Battery,

LED: 1W Super Bright LED for high power light

Four lighting mode: High, Medium, Low and Bed light

Cellphone Charger: It can charge most popular cellphones in the market. Such as NOKIA, SAMSUNG, SONY ERICSSON, etc.

Product Description

TD-803 LED Solar Lantern

Solar Lantern is an advanced portable solar lighting system, ideal for remote area / village dwelling. It is pollution-free and an excellent replacement for conventional kerosene lamps and lanterns. The portable Solar Lantern has a 36pcs LED, sealed maintenance free battery and electronics all placed in an elegant housing. The solar energy generated by the SPV module is stored in the battery which in turn powers the highly efficient LED lamp.

Specification:

1. Solar Panel: 3W Multi-Crystalline Silicon solar panel
2. Battery: 6V/4AH maintenance-free Lead-acid battery
3. Light Source: 36pcs super bright white LED
4. Charging Time: ①. AC Adaptor: 12-15hrs ②. Solar Panel: 10-12hrs
5. Duration Time: 6-8 hours with full charged
6. Available color: Blue , Yellow , Silver
7. Lantern Size: Dia130mm, H255mm

Additional Function:

- Mobile-phone charging: can charge all types mobile phone battery
- Battery Charger: Can charge AA or AAA size rechargeable battery
